TRANSPORTATION NOTIFICATION REGARDING OPEN-ENROLLED STUDENTS

State law specifies that a district that enrolls nonresident pupils under alternative attendance programs (enrollment options) must provide authorized transportation to the pupil within the attendance area for the school that the pupil attends. The district is not obligated, except under special circumstances to provide transportation from the pupil's home to the border of that attendance area.

If requested by the parent of a pupil, the nonresident district shall provide transportation within the district. The resident district is not required to provide or pay for transportation between the pupil's residence and the border of the nonresident district.

Parents wishing to make transportation arrangements for their children should contact Cloquet Transit at: (218) 8791291.

Questions regarding transportation which cannot be addressed by Cloquet Transit may be directed to the district office at (218) 879-6721, ext. 6204.

SIGNATURE

I hereby indicate that I have received the above notification regarding transportation for open-enrolled students.
