

The USDA Food and Nutrition Services published a nationwide waiver extension for operating under the Summer Food Service Program through December 31,2020 or until funding is exhausted.

The benefits of operating under this waiver is all students are provided meals at no charge. USDA reserves the right to end the program extension at an earlier date than December 31,2020, if this happens we will return to the National School Lunch/Breakfast Program which will require charging of meals served.

It is still very important if you feel you may qualify for free or reduced school meals to fill out the application for benefits, the approval of the application may also effect sport fees, and technology fees. This application can be picked up at any school office and can also be found on our web site under foodservice. There is a printable version and also an on- line version for your convenience.
