On the Move!

What an exciting time to live in Cloquet! There is change all around us, which is a sign of growth and vibrancy. The new middle school building is well underway and will be finished late this summer in time for students to fill it with their boundless energy in September.

The Cloquet schools are also completing projects for safer entrances on some of the buildings, and a new wing is being added to Churchill Elementary to house Time for Tots preschool and Early Childhood Family Education classes.

New facilities means that Community Education will be moving!

We will remain in the current middle school until the end of June. At that time we will shift our temporary office to the high school office area. This temporary location will allow us to keep serving customers and making things happen in the community until we can move into our new office space near the pool area in the new middle school.

When we move to the high school, Time for Tots and ECFE will move up to the new wing at Churchill. While their offices are not open during the summer months, you may call and leave a message as they will be checking messages throughout the summer. Phone numbers for Community Education, 879-1261, and Time for Tots/ECFE, 879-9291, will remain the same.

In addition to the changes with school facilities, the City Parks are also seeing major improvements. Last summer, we saw Pinehurst Park and Veteran’s Park get some wonderful updates. We also saw enhancements at Fauley Park and a disc golf course added near Hilltop Park. This summer, we will see mountain bike trails added at Pine Valley, and a major two-year project will begin to improve Voyageur’s Park.

These exciting changes are a sign that Cloquet residents like to move forward and feel optimistic about their future! We invite you to get out and enjoy the wonderful park system of Cloquet, and to watch for open houses at the schools.

The only constant is change.

Radiant Floor Heating [New!]
You can do-it-yourself! Lower your heating bill with the most efficient, most comfortable, and most effective way to heat a building – by using hot water tubes in the floor. Instead of the costly hard to use foam for slabs, use flexible under slab roll out blanket, (the same method used on sauna walls to keep the heat in.) The blanket is a heat reflector, vapor and Radon barrier all in one. Learn about rolls of reflective barriers for wood floors, tubes and the different boilers and manifolds to do the job. All questions answered, and many handouts provided. Do-it-yourselfers and contractors welcome.

Meet our new dance coach!
“My name is Emily Proulx and I have been dancing for about 19 years. I danced studio at The Dance Factory in my hometown of Forest Lake, Minnesota from the age of 3 to 18. In high school, I was part of the Forest Lake Dance Team. My senior year I was elected captain and helped lead my team to state for the first time in school history. I am now a junior at UMD. Both my parents grew up in Cloquet and my extended family still lives here today. One of my uncles is even the tennis coach. I look forward to meeting you all at try-outs this spring and am excited for the season!”
